CANOLA

# **READY WHEN YOU ARE**

*You only get one shot. So go with your best option: TruFlex<sup>®</sup> Canola*

# TRUFLEX<sup>®</sup> CANOLA TECHNOLOGY

TruFlex<sup>®</sup> canola with Roundup Ready<sup>®</sup> Technology is the second generation glyphosate-tolerant canola trait from Bayer.

TruFlex canola builds on the Roundup Ready<sup>®</sup> canola trait, which farmers have known and trusted in the Australian market since 2008.

This advance in trait technology helps enable better weed control and crop safety when compared to Roundup Ready canola. It's a combination that could result in higher yields at harvest time.

## THE RATE FARMERS NEED FOR THEIR WEED CHALLENGES

PRODUCT	ACTIVE INGREDIENT			
<b>OVER THE TOP USE (OTT)</b>				
	<b>690 g/kg glyphosate</b>	2 apps @ 0.9 kg/ha	2 apps @ 1.3 kg/ha	3 apps @ 0.9 kg/ha
	<b>540 g/L glyphosate</b>	2 apps @ 1.15 L/ha	2 apps @ 1.67 L/ha	3 apps @ 1.15 L/ha
<b>PRE-HARVEST USE</b>				
	<b>570 g/L glyphosate</b>	1.2 – 3.4 L/ha		

# ROUNDUP READY® HERBICIDES

## Roundup Ready canola Technologies and the Roundup Ready Herbicide range are designed to work together.

These leading formulations control a wide range of weed species, enabling growers to achieve higher yields through cleaner fields.

### FLEXIBLE FORMULATIONS

The Roundup Ready Herbicide range features two formulations to meet growers' needs. The premium granular (SG) formulation that growers know and trust, and the convenience of a proven liquid (SL) formulation.

### SURFACTANT TECHNOLOGY

These quality formulations use a proprietary surfactant technology to ensure superior performance.

### CROP SAFETY THROUGH PLANTSHIELD® TECHNOLOGY

Roundup Ready Herbicides are the only formulations that include PLANTSHIELD Technology. PLANTSHIELD helps optimise crop safety in OTT situations, protecting growers' TruFlex and Roundup Ready canola crops in a wide range of conditions.

### CROP SAFETY WARRANTY FROM BAYER

The Roundup Ready Herbicide range are the only registered over-the-top glyphosate formulations that come with the Bayer crop safety warranty.

### EXCELLENT WEED CONTROL

The Roundup Ready Herbicide range is specifically designed to control annual and perennial weeds, both before and after planting TruFlex and Roundup Ready canola. Both products provide excellent weed control, helping farmers achieve higher yield potential through cleaner fields.

**ROUNDUP READY® PL HERBICIDE WITH PLANTSHIELD® TECHNOLOGY**

**ROUNDUP READY® HERBICIDE WITH PLANTSHIELD®**

ACTIVE INGREDIENT	540 g/L glyphosate	690 g/kg glyphosate
PRESENT AS	Potassium salt	Mono-ammonium salt
FORMULATION TYPE	Soluble concentrate (SL)	Water soluble granule (SG)

# OUR LICENSING & STEWARDSHIP AGREEMENT (LSA)

If you haven't signed an LSA, log in to  to receive a new version, or scan the QR code to request a copy.

New LSA agreements are identified by having a 22, 23, 24 or 25 at the start of the LSA number.

## 2025 CANOLA SEASON KEY DATES

MTrack seed sale entry opens in March

Early entry deadline for seed sales to be recorded in MTrack

All seed sales must be recorded in MTrack (including any warranty/replacement seed)

### CANOLA VARIETIES CONTAINING THE BAYER TECHNOLOGY TRAITS

Bayer partners with leading canola seed companies to ensure TruFlex canola and Roundup Ready canola Technologies are available in high-performing varieties. Please contact the seed companies listed below directly for variety-specific enquiries.
